We are singularly focused on improving the oral health of our members through affordable and comprehensive dental programs. Oral health is our passion and it shows in everything we do.

### Why Choose a Plan for Orthodontics Only?

Many dental plans do not offer orthodontic coverage. This plan provides you with discounts on orthodontic services as a supplement to your current dental plan. If your current dental plan is a traditional or PPO plan, please consult with that carrier concerning coordination of benefits with this discount plan.

### Can I Use my Flexible Spending Account to Help Pay for the Discounted Cost of Treatment?

Absolutely! Though your flexible spending account cannot be used to pay for the cost of the premium, it may be used to help pay for the cost of treatment. Please contact your employer's human resources department for information on enrolling in your flexible spending account.

### How Do I Select a Participating Orthodontist?

Please select a participating orthodontist from our ORTHOSelect Directory or visit our Web site at [www.dentaquestdental.com](http://www.dentaquestdental.com) and click on the Find a Dentist link to locate a participating ORTHOSelect orthodontist.
